

Recruitment Media Kit 2018

CellPress

About Cell Press

With each passing year, the scientific community experiences massive leaps in the discovery and promise of new scientific breakthroughs, and for more than 40 years, Cell Press has been privileged to publish many of those impactful findings. And, as the science continues to evolve and change, so does Cell Press.

At Cell Press, we understand your main objective is to find highly qualified researchers. Whether it is with an online job posting on the Cell Career Network, sponsorship in one of our several email alerts (eTOCs), or with online banners and print advertising in our targeted journals, we offer opportunities to generate interested applicants by connecting your organization with our targeted audience.

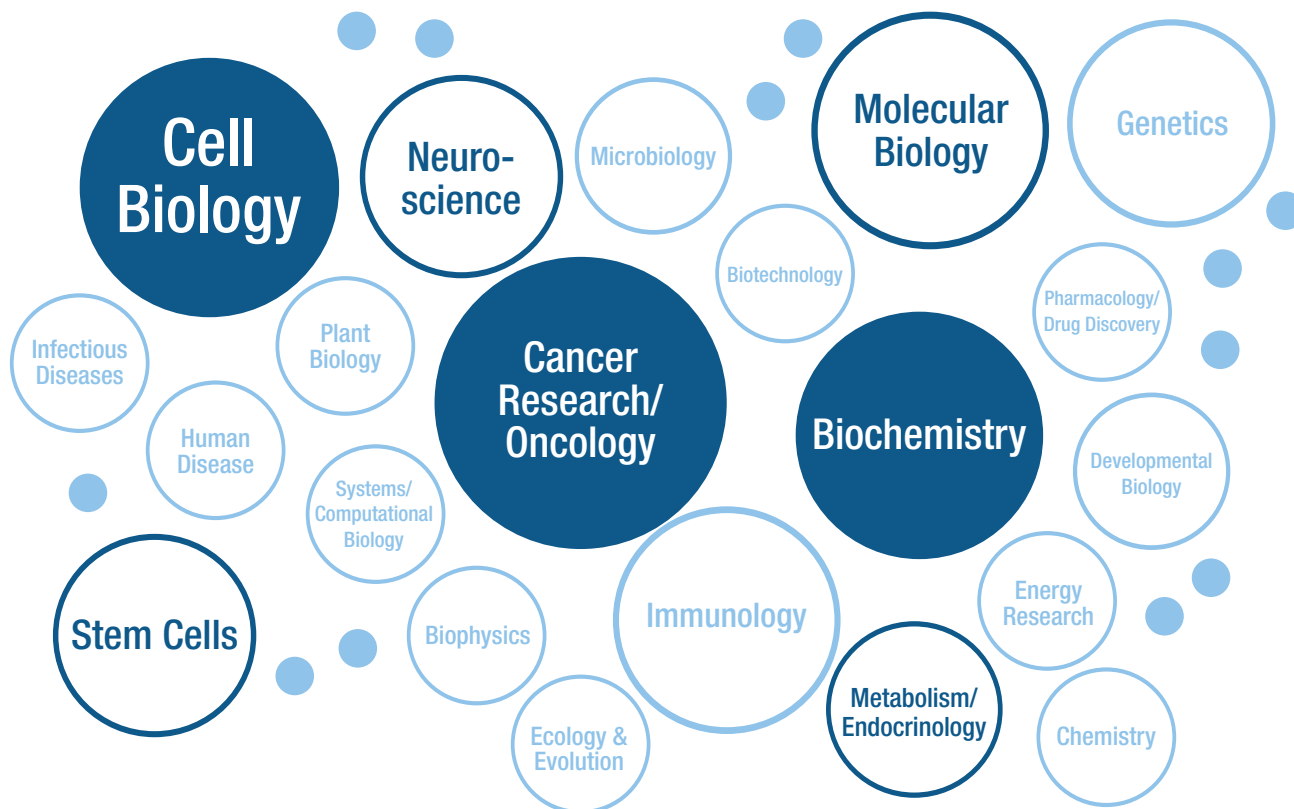

The highest quality, sought-after candidates read content that represents the greatest value. Cell Press offers that high-quality content and an environment that connects you with value and thought leadership. We aim to help you reach far beyond the static, into the inboxes and consciousness of our subscribers.

Thank you for taking the time to review our 2018 Recruitment Media Kit. We look forward to assisting you with your next candidate search, conference or grant announcement.

Cell Career Network

Cell Career Network is the premier web platform for your recruiting efforts and events. Our highly-qualified audience uses Cell Career Network to keep tabs on industry trends and meetings, and for career advancement such as job openings and funding opportunities.

- Promote an upcoming course, conference, or event
- Announce a grant/award
- Elevate your company's profile

Online job board product options

	60-Day	90-Day
Single posting	\$375	\$525

Banners

Banners

New for 2018: our banners are now responsive! To improve ad visibility, the leaderboard banner will hover with content on desktop and mobile devices

As screens gradually permeate each aspect of our lives, banner advertising generates awareness for your brand or product in the moment your targeted customer is in their “science zone”. Readers come to Cell.com, individual journal homepages, and the Elsevier online platform, ScienceDirect, to read and research the latest great science. Choose from standard banners, flash banners, and rich media.

Geo-target your markets. Select regional targets to push specific examples and messaging. Cater to international customers with distinct messaging!

Specifications

Standard banner

- Acceptable formats: .gif and/or .jpeg
- Animations should run for less than three rotations or 30 seconds
- All ads with a white background must include a colored border
- All available ad sizes

Flash banner

- Animations should run for less than three rotations or 30 seconds
- All ads with a white background must include a colored border
- Flash ads should use Click-Tag. When submitting rich media, an alternate .gif is required
- 336 x 280 pixels
- 728 x 90 pixels

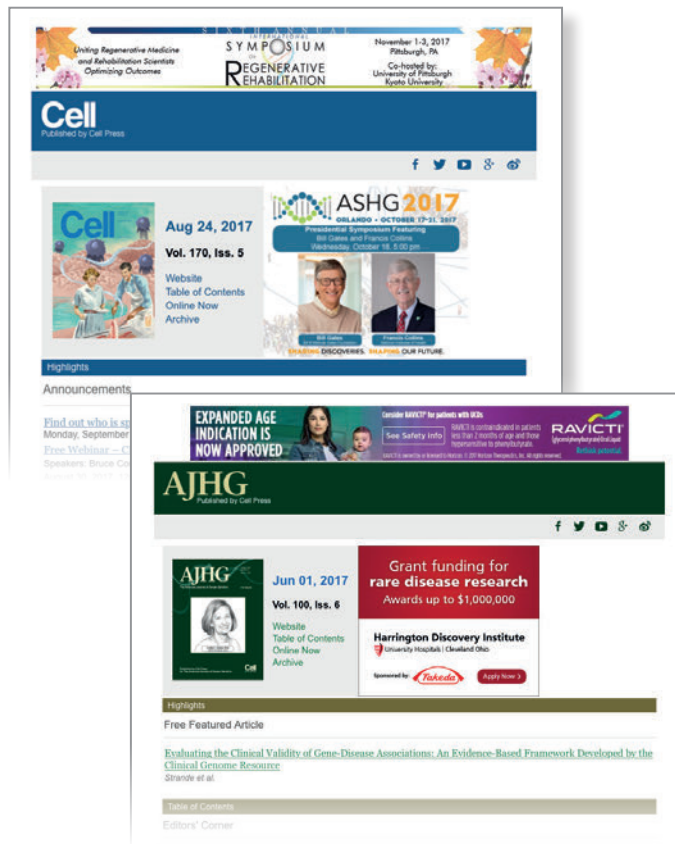

Electronic Table of Contents (eToC)

Email Targeting

Broadcast your message in the audience's inbox through our electronic Tables of Contents (eToCs). Recipients are all opt-in subscribers, so emails are all fully permission based. Opportunities are available for all primary Cell Press research journals and are delivered the day before each journal's cover date.

Two sponsored message slots are available:

- Top: 728 x 90 (before the Table of Contents)
- Middle: 336 x 280 (within the body)

It's contextual, with a Phd (SciClick)

Discover a comprehensive marketing solution. Our readers turn to Cell Press for landmark discoveries and a host of fascinating article formats, including our highly popular Previews, Minireviews, and Reviews. Generate maximum awareness through Marketplace Recommendations.

Rather than guessing where your messaging should land, our Marketplace Recommendations tool uses SciClick software to read every article in real time and match it to product notes that you've supplied. This ensures that every reader is being shown your relevant product lines at every juncture of their research.

Marketplace Recommendations with Cell Press offers an unrivaled opportunity to drive readers directly to your applications and products relevant to their work.

Features

- Drive highly qualified traffic to your website from a robust content-rich environment
- Deliver a focused and targeted message alongside first-rate, peer-reviewed content
- SciClick Contextual Link Advertising utilizes a unique search algorithm to match your message in context with the content on cell.com to drive traffic to your specifically chosen URL

CellPress

Advertising package includes

- Customized campaign with campaign optimization manager
- Unlimited SciClick Contextual Link Advertising
- Unlimited outbound clicks
- Monthly updates and edits
- Comprehensive analytics

The screenshot shows a Cell Press article titled "A Gut Microbial Mimic that Hijacks Diabetogenic Autoreactivity to Suppress Colitis". The article text discusses the role of IGRP₂₀₀₋₂₁₄ reactive CD8+ T cell subsets in NOD mice. A SciClick advertisement for an "Azure Ac Absorbance Microplate Reader" is overlaid on the article content. The ad includes a search bar, a "START YOUR FREE 7 DAY TRIAL NOW" button, and a list of product features. The article text is partially obscured by the ad, but the main content remains visible.

Classified Preferred Packages

Create targeted awareness in print and online with a Cell Press Classified Preferred Package. Each package is uniquely targeted to a specific market and offers remarkable savings on published rate card prices.

- Ads to run concurrently in a single month, as allowed by the publication schedule.
- One creative ad file to be used across all journals in the package.

Cell Press research journals

Cell Press: the best of the best

- 47% of our readers are the lead decision maker in their company or lab
- Consistently the highest impact factor in the biology category
- Discipline-leading journals in all life science verticals
- Increased translational content offerings
- Trends and review content provide invaluable insights

Relevance and impact factor

At Cell Press, we understand that impact factor is just one measure of journal performance, and you can find additional metrics at: cell.com/impact

Impact Factor
30.410

26 issues per year

- Molecular biology (transcription, RNAi splicing, RNA editing, DNA replication and repair, protein synthesis and editing, protein modification and degradation, and chromatin)
- Cell biology (cell cycle, subcellular organization, protein and membrane transport, protein folding and stability, and signal transduction)
- Systems biology
- Stem cells
- Human disease (infectious diseases including HIV and other viruses, cancer, and human disease genes)
- Developmental biology (differentiation and morphogenesis, organogenesis, sex determination, stem cell biology, apoptosis, and embryology in all model organisms including plants, mice, fish, flies, chicks, and worms)
- Genetics and genomics (bacterial regulation, fly and worm genetics, and eukaryotic genomics)

- Proteomics
- Cancer research
- Immunology (T cell selection, lymphocytes and immunoglobulins, and somatic hypermutation)
- Neuroscience (learning and memory, neuronal guidance and connections, and synaptic transmission)
- Structural biology
- Microbiology
- Virology
- Physiology (receptors, hormone action, obesity, and lifespan)
- Evolution
- Biophysics
- Computational biology

Impact Factor
27.407

12 issues per year

- Genetics, epigenetics, and genomic instability
- Cell signaling and communication
- Cell cycle and DNA repair
- Diagnostics (molecular profiling and pharmacogenomics)
- Telomerase and transformation
- Apoptosis
- Angiogenesis and metastasis
- Animal models
- Cancer therapy (rational drug design and small-molecule and biological-molecule therapeutics)

Impact Factor
6.743

12 issues per year

- Chemical insights into signaling, catalysis, and gene expression
- Novel chemical and biological methods for molecular design, synthesis, and analysis
- Glycomics
- Chemical genetics
- Chemistry and biology of natural and unnatural biopolymers
- The use of natural and designed molecules as probes of cellular pathways
- Drug design
- The nature of molecular recognition in biological systems
- Novel procedures for the large-scale analysis of genes and proteins
- Functional and structural genomics
- Molecular basis of evolution

Impact Factor
14.946

12 issues per year

- Molecular and cell biology of microbes
- Microbial pathogenesis
- Host cellular and immune response to microbes
- Immune evasion
- Therapeutics
- Evolution, epidemiology, and natural history of microbes
- Vaccine design, development, and trials
- Emerging pathogens

Impact Factor
18.164

12 issues per year

- Diabetes
- Obesity
- Energy balance
- Cardiovascular disease
- Adipocyte and lipid biology
- Aging and stress response
- Mitochondria
- Hypertension
- Bone homeostasis
- Molecular endocrinology

Impact Factor
8.282

52 issues per year

- Open-access, online-only
- High-quality papers across life science spectrum
- Focus on shorter, single-point articles, entitled Reports, in addition to longer articles
- The primary criterion for both types of formats is new biological insight

Impact Factor
23.394

12 issues per year

- Embryonic stem cells
- Pluripotency
- Germline stem cells
- Tissue-specific stem cells
- Stem cell differentiation
- Epigenetics
- Stem cell genomics and systems biology
- Genome reprogramming
- Cancer stem cells
- Stem cell niches
- Stem cell-based disease models
- Nuclear transfer technology
- Bioengineering
- Drug discovery
- *In vivo* imaging of stem cells
- Therapeutic applications
- Regenerative medicine
- Clinical and translational insights
- Stem cell research policies, ethical issues, and technical or resource-based innovations

Impact Factor
8.406

12 issues per year

- Systems at all scales
- Microbiology
- Cancer
- Immunology
- Plant biology
- Computational biology
- Genomics
- Proteomics
- Translational medicine
- Digital healthcare
- Biological engineering
- Systems and synthetic biology

Impact Factor
8.851

24 issues per year

- Cell biology, including cell signaling, cell-cycle regulation, and apoptosis
- Developmental biology
- Cellular and systems neuroscience
- Neurobiology and behavior
- Cancer biology
- Gene expression, including genomics and proteomics
- DNA and RNA metabolism, including transcription and translation
- Immunology
- Ecology and evolution

Impact Factor
9.174

24 issues per year

- Cell migration
- Cell polarity
- Cell proliferation
- Developmental roles of genes or pathways
- Differentiation
- Evolutionary relationships
- Genome-wide analysis
- Intracellular targeting
- Membrane traffic
- Morphogenesis
- Signaling pathways

Impact Factor
22.845

12 issues per year

- Immune cell development and senescence
- Signal transduction
- Gene regulation
- Innate and adaptive immunity
- Cytokines and inflammatory responses
- Autoimmunity and tolerance
- Infectious disease
- Tumor immunology
- Vaccine biology
- Transplantation biology
- Allergy and asthma

Impact Factor
14.714

24 issues per year

- Gene expression and transcriptional and epigenetic regulation
- DNA replication, recombination, and repair
- RNA processing
- Translation
- Protein folding, modification, and degradation
- Signal transduction
- Cell cycle
- Cell death
- Systems biology

Impact Factor
14.024

24 issues per year

- Developmental neurobiology
- Cellular and molecular neuroscience
- Synaptic transmission and plasticity
- Ion channel structure and function
- Behavioral and systems neuroscience
- Cognitive neuroscience
- Neurological and psychiatric disease
- Computational neurobiology

Impact Factor
4.945

12 issues per year

- Atomic resolution analysis
- X-ray crystallography
- Nuclear magnetic resonance spectroscopy
- Computational analyses, simulations, and predictions
- Electron microscopy
- Neutron scattering
- Hydrodynamics
- X-ray absorption spectroscopy
- Biochemical studies
- Biophysical analyses
- Fluorescence energy transfer
- Design, construction, and analysis of novel protein and RNA structures
- Catalytic activities
- Medium- to low-resolution structural analysis
- Single-molecule analysis
- Small-angle X-ray scattering
- Emerging methods in structure determination

**NEW IN
2016**

12 issues per year

Chem publishes work from across the chemical sciences and at the interfaces between chemistry and other disciplines. *Chem* showcases how fundamental studies in chemistry and its sub-disciplines may help in finding potential solutions to the global challenges of tomorrow.

- Organic chemistry
- Inorganic chemistry
- Physical chemistry
- Materials science
- Nanoscience
- Catalysis
- Chemical biology
- Analytical chemistry
- Supramolecular chemistry
- Theoretical chemistry
- Computational chemistry
- Green chemistry
- Energy and environmental chemistry
- Atmospheric chemistry
- Food chemistry

Joule is a home for outstanding and insightful research, analysis and ideas addressing a key global challenge: the need for more sustainable energy. *Joule* is a distinctive and forward-looking journal, bridging disciplines and scales of energy research, which connects all who are researching and analyzing the challenges – scientific, technical, economic, policy and social – of providing sustainable energy solutions..

- Batteries and supercapacitors
- Biofuels and biotechnology
- Carbon capture and storage
- Energy access, security, and behavior
- Energy grids and networks
- Energy-harvesting devices
- Energy policy and economics
- Fuel cells and electrocatalysis
- Geothermal energy
- Hydrogen storage and energy
- Materials for energy systems
- Nuclear power
- Solar energy
- Techno-economic analysis and life-cycle assessment
- Transportation fuels
- Wave energy, wind energy, and hydroelectricity

12 issues per year

- Embryonic stem cells
- Adult stem cells
- Reprogramming to pluripotency and lineage conversion
- Directed differentiation
- Germ cells
- Genetic and epigenetic mechanisms
- Stem cells in development
- Stem cell niche
- Cancer stem cells
- Disease modeling and drug screening
- Stem cell therapy
- Clinical studies in regenerative medicine
- Tissue engineering and biomaterials
- Imaging and diagnostics
- Stem cell products, manufacturing, and quality control
- Ethical, legal, and social issues

Molecular Therapy family of journals

Cell Press is delighted to announce our partnership with the American Society of Gene and Cell Therapy to publish the *Molecular Therapy* family of journals. Commencing January 2017, this premier collection of journals in the exciting areas of molecular and cellular therapeutics is published alongside the high-quality, cutting-edge research that you've come to expect from Cell Press journals.

www.cell.com/molecular-therapy-family/home

12 issues per year

Molecular Therapy is the leading international journal for research on the development of molecular and cellular therapeutics to correct genetic and acquired diseases, including, but not limited to, research on gene transfer and editing, vector development and design, stem cell manipulation, vaccine development, pre-clinical target validation, safety/efficacy studies, and clinical trials.

4 issues per year

Molecular Therapy — Methods & Clinical Development is an open-access journal publishing top-quality, novel methods, as well as significant improvements to established research techniques in basic, translational, and clinical cell and gene therapy. Topics of interest include gene vector engineering and production, methods for targeted genome editing and engineering, technology development for cell reprogramming, and directed differentiation of pluripotent cells.

4 issues per year

Molecular Therapy — Nucleic Acids publishes research targeted to the advances in nucleic acid-based therapeutics to treat and/or correct genetic and acquired disease. Subject areas include development of therapeutics based on nucleic acids and their derivatives, vector development and design for the delivery of RNA-based therapeutics, and applications of gene-modifying agents.

4 issues per year

Molecular Therapy — Oncolytics is an international, open-access journal focusing on the development and clinical testing of viral, cellular, and other biological therapies targeting cancer. While providing a unique forum for work in the burgeoning fields of oncolytic virotherapy, as well as T cell- and stem cell-based therapies, the journal will consider all top-quality research that employs innovative molecular and cellular approaches that target cancer cells for destruction.

1/2 Page Horizontal		7" x 4.5" (178 mm x 114 mm)	
1/2 Page Vertical		3.25" x 9.25" (82 mm x 235 mm)	
1/4 Page		3.25" x 4.5" (82 mm x 114 mm)	

Print advertisement specifications

- File Format: PDF version 1.3; Acrobat Distiller 4.0 compatible
- Color: CMYK and grayscale only
- All fonts must be embedded and subset
- Image resolution: 300 dpi minimum for color or grayscale images; 500 dpi minimum for combination color and grayscale images; 1,000 dpi minimum for monochrome bitmap (line art) images
- All bitmapped or rasterized images should be saved as TIFF format rather than EPS
- Do not use color management (i.e., no ICC profiling, SWOP, or RGB color)
- DO NOT INCLUDE: OPI information, transparencies, PEG/GIF/copydot elements

Calendar

Bonus Distribution means your advertisement will have broad visibility at key meetings and conferences throughout 2018. Cell Press journals will have extensive presence at many Keystone Symposia, Cell Symposia, LabLinks meetings, and additional society and annual meetings worldwide.

Society and Annual Meetings

Conference/Meeting Name	Start Date	End Date	Location
Society for Laboratory Automation and Screening	03-Feb-18	07-Feb-18	San Diego, CA, USA
Biophysical Society	17-Feb-18	21-Feb-18	San Francisco, CA, USA
American Association for Cancer Research	14-Apr-18	18-Apr-18	Chicago, IL, USA
American Society for Chemistry - Spring	18-Mar-18	22-Mar-18	New Orleans, LA, USA
American Association of Immunologists	04-May-18	08-May-18	Austin, TX, USA
American Society for Gene and Cell Therapy	16-May-18	19-May-18	Chicago, IL, USA
American Society for Microbiology	07-Jun-18	11-Jun-18	Atlanta, GA, USA
International Society for Stem Cell Research	20-Jun-18	23-Jun-18	Melbourne, Australia
Federation of European Neuroscience Societies	07-Jul-18	11-Jul-18	Berlin, Germany
American Society for Chemistry – Fall	19-Aug-18	23-Aug-18	Boston, MA, USA
NIH – Fall Research Festival	Sep-18	Sep-18	Bethesda, MD, USA
American Society of Human Genetics	17-Oct-18	21-Oct-18	San Diego, CA, USA
Society for Neuroscience	12-Nov-18	16-Nov-18	San Diego, CA, USA
Materials Research Society - Fall	25-Nov-18	30-Nov-18	Boston, MA, USA
American Society for Cell Biology	08-Dec-18	12-Dec-18	San Diego, CA, USA

Cell Symposia

Conference/Meeting Name	Start Date	End Date	Location
Cell-Weizmann Institute of Science Symposium: Next Gen Immunology	11-Feb-18	14-Feb-18	Rehovot, Israel
Multifaceted Mitochondria	04-Jun-18	06-Jun-18	San Diego, CA, USA
Translational Immunometabolism	24-Jun-18	26-Jun-18	Basel, Switzerland
The TCGA Legacy: Multi-omic Studies in Cancer	27-Sep-18	29-Sep-18	Washington, DC, USA
Aging and Metabolism	23-Sep-18	25-Sep-18	Sitges, Spain
Cell-NERF Symposium: Engineering the Brain: Recent Developments in Neurotechnologies	30-Sep-18	02-Oct-18	Leuven, Belgium
Translation of Pluripotent Stem Cells to the Clinic: Challenges and Opportunities	04-Dec-18	04-Dec-18	Los Angeles, CA, USA
RNA Biology	TBD	TBD	TBD

Cell Press LabLinks

Conference/Meeting Name	Date	Location
Translational Neuroscience	Feb-18	Cambridge, MA, USA
Systems Immunology	Sep-18	San Francisco, CA, USA
Microbiomes in Humans and Plants	TBD	Ghent, Belgium
Overcoming Drug Resistance in Cancer	TBD	TBD
Physical Sciences	TBD	TBD
Metastasis	TBD	New York, NY, USA
Chemical and Biological Innovations for Energy, Health, and Sanitation in the Developing World	TBD	Berkeley, CA, USA
